VOLUME CVI.—NO 143.

ALEXANDRIA, VA., SATURDAY EVENING, JUNE 17, 1905.

PRICE 2 CENTS.

A rich man died the other day. He died in the very midst of life, and he left his family \$1,000,000. The doctor's certificate showed that death resulted from typhoid fever. The doctor himself said to a friend: "That man was a suicide. He had a splendid constitution. I could have pulled him through if his stomach had been sound. But he ruined his stomach by hasty meals, snatched in intervals of business and by neglect of symptoms which have been warning him for a year past, that his stomach was failing in its duties."

The symptoms of a disordered stomach are, among others, variable appetite, sour risings, heartburn, undue fullness after eating, dull headache, dinky complexion, discolored eye, fluctuations in physical strength, nervousness, sleeplessness, dependency. No person will have all these symptoms at once.

The restoration of the stomach to sound health, begins with the first dose of Dr. Pierce's Golden Medical Discovery. The cure progresses until the functions of the stomach are in healthy operation. Then the nerves are quiet and strong, the appetite healthful, the sleep restful, the eye bright, the complexion clear.

"Please accept my thanks for the benefit which my child received from your medicine," writes Mrs. W. A. Norton, of Silsbee, Mo. "He had been troubled for nearly a year with liver complaint, indigestion and constipation. I gave him your Golden Medical Discovery and Pleasant Pellets, and they did him great good. I gave him the 'Discovery' about eight months, and several vials of the 'Pellets.' He seems to be perfectly well now."

If you want a cure accept no substitute for "Golden Medical Discovery."

These ORIGINAL Little Liver Pills, first put up by Dr. R. V. Pierce over 40 years ago, have been much imitated but never equalled. They're made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They speedily relieve and cure foul, torpid and deranged stomachs, livers and bowels and all attendant distasteful ailments. One or two a laxative, three or four a cathartic.

DISCRIMINATING LADIES.

Enjoy Using Herpelc on Account of Its Distinctiveness.

The ladies who have used Newbro's Herpelc speak of it in the highest terms, for its quick effect in cleansing the scalp of dandruff and also for its excellence as a general hair-dressing. It makes the scalp feel fresh and it allays that itching which dandruff will cause. Newbro's Herpelc effectively cures dandruff, as it destroys the germ that causes it. The same germ causes hair to fall out, and later baldness; in killing it, Herpelc stops falling hair and prevents baldness. It is also an ideal hair dressing, for it lends an aristocratic charm to the hair that is quite distinctive. Sold by leading druggists. Send 10c in stamps for sample to The Herpelc Co., Detroit, Mich.

## Two Dyspeptics

If you are too fat it is because your food turns to fat instead of muscle—strength. If you are too lean the fat producing foods that you eat are not properly digested and assimilated.

Lean, thin, stringy people do not have enough Pepsin in the stomach, while fat people have too much Pepsin and not enough Pancreatic.

## Kodol Dyspepsia Cure

contains all the digestive juices that are found in a healthy stomach, and in exactly those proportions necessary to enable the stomach and digestive organs to digest and assimilate all foods that may be eaten. Kodol is not only a perfect digestant, but it is a reconstructive, tissue building tonic as well. Kodol cures Indigestion, Dyspepsia, Sour Stomach, Heartburn, Palpitation of the Heart and Constipation. You will like it.

## ANOTHER WAR CLOUD.

It can no longer be denied that we are in the presence of an international crisis of the first magnitude. Paris wired last night that the French government is almost convinced that it is Germany's deliberate intention to provoke war. Orders were given by the ministry of war Wednesday to make every preparation to resist attack. All officers and men on leave were ordered to rejoin the colors instantly. Special trains in all parts of the country have been facilitating the execution of the instructions.

Prime Minister Rouvier has adopted the most conciliatory attitude toward Germany, but every concession he makes inspires fresh demands until now Emperor William asks in effect the cancellation of the Anglo-French entente. This is not, of course, demanded in so many words, but it is insisted that France shall make no combinations antagonistic to German interests.

Complete submission to the pressure the Kaiser is now putting upon the French republic would reduce the country to vassalage. France sincerely desires to avoid war, but at the moment it is apparent that Germany is deliberately attempting to humiliate her, French pride will burst into uncontrollable resentment.

It should not be inferred from the Paris dispatch of Wednesday that the British attitude is in any degree weak or yielding. The British government is fully aware that Germany's aggression is aimed quite as much at Great Britain as against France. Lord Lansdowne is at all peace, but the remainder of the cabinet are determined to resist with all the resources of the empire any serious encroachment on British interests.

Lord Lansdowne has counseled France, while avoiding all provocation, to preserve a firm attitude in face of German aggression. Great Britain has also taken important independent action which is not yet disclosed. It will become known when the China squadron and other ships of the British navy, which are hastening homeward at top speed, approach their destination. It will be found to be quite as significant as the mobilization of the flying squadron which was Great Britain's response to the Kaiser's famous Krueger letters. There is reason to believe also that even if France yields to German pressure in the matter of an international conference in regard to Morocco, England will yet stand alone. The British government and people were never more anxious for peace than now, but if the Kaiser should attempt to deal with England as he is treating France, war would be a question of only hours.

Referring to the seriousness of the Franco-German tension, the Paris correspondent of the London Express states that the postulated Wednesday night was considered so grave that it was believed that France was so near war with Germany that the minister of war and his whole staff remained up all night, ready to give mobilization orders to the army if necessary.

The correspondent adds that M. Rouvier's conciliatory tone has been mistaken by Germany for weakness and the Kaiser's demands are increasing. But for the encouragement received from Lord Lansdowne, the British foreign secretary, France would by now have acceded to all these demands. Great Britain assured the republic of her support throughout.

Meantime the developments in the Russo-Japanese peace movement command only the secondary attention of official circles and the general public.

## Another Attack on Fortress Monroe.

Admiral Dickens, with his squadron, again bombarded Fort Monroe last night. The engagement was an exact reproduction of the performance of Thursday night. The bombardment began at 10:30 o'clock. The monitors approached after the torpedo-boat destroyers had made a run by, firing continuously, and creating a bank of smoke. A novel feature was the audacity of four of the steam launches of the squadron. Painted black, they formed a line and ran the length of the fort close in shore, firing continuously with one-pounders. The battle was witnessed by crowds of people, who lined these walls, excursions having been run to Old Point throughout the day. The demonstration is designated in the rules governing the war game as a "run by night." The result in number and accuracy of shots will have to be computed later. The mines of the defense were supposed to be removed.

The joint exercises of the army and navy which began last Sunday ended today. Long-range firing between the fleet of Admiral Dickens and the fort began shortly after 11 o'clock yesterday. The fleet was divided into two squadrons and approached the fort from Chesapeake bay and from the capes. The smaller craft did not participate. The benefit derived was in the range-finding practice. From the naval standpoint, the object of the "reconnaissance in force" is to locate the shore batteries by drawing their fire at long range.

The double-turret monitor Terror withdrew from the war game yesterday afternoon on account of damage. She proceeded to the Norfolk navy yard.
